Forecast for Sunday 21 Feb 2021

Weather: Some wintry showers in the early hours and staying cloudy overnight. By morning a few wintery showers will linger particularly for south facing ranges like the Angus Glens and southern Cairngorms but cloud beginning to thin and lift with some breaks and sunny intervals expected in the afternoon. Eastern ranges around Loch Muick and Mt Keen will see the best of the sunshine and cloud breaks. Clear spells during the evening.

Chance of cloud free mountain/hill tops above 800m: 50% in the morning with some cloud lingering especially in the Angus Glens and around showers. Improving to 90% in the afternoon with most cloud well above the summits.

Visibility: The best visibility will be in the east and north of the area where very few showers will reach. Cloud will generally be above the summits with just a few patches falling below 800m. In the west cloud bases will become broken at 600m around wintery showers in the morning. During showers visibility may fall very poor for a time in snow or sleet. Cloud will become more scattered here by late morning at around 700m.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

A very windy day with a few storm force gusts early in the day, southerly gales will ease gradually during the day. Feeling very cold with a significant wind chill and freezing level falling just below 1000m. Rain and snow melt from previous days will make streams and rivers very full and fast flowing and some may be impassible, the ground will be very soggy in places.

Forecast for Monday 22 Feb 2021

Weather: Cloudy overnight but then generally a dry and bright day across all ranges with long sunny intervals.

Maximum wind: Southerly or southwesterly 20-25mph with gusts 30-35mph

Chance of cloud free mountain/hill tops above 800m: 95% generally all the summits will be clear with some good views available.

Visibility: Very good or excellent throughout.

Temperature: **Glens:** Plus 4 rising to plus 8 Celsius.
At 800m: Plus 1 Celsius.
Freezing level: 600-800m.
